A hand-drawn sketch of a mobile application interface for adding an event. The interface is contained within a rounded rectangle representing a phone screen. At the top, there is a status bar with a signal icon, a battery icon, and the time '22:40'. Below the status bar is a header bar with a hamburger menu icon on the left, the text 'ajoutez un evenement' in the center, and a close 'X' icon on the right. The main content area contains several form fields: three small input boxes at the top labeled 'debut', 'joure', and 'fin'; a label 'libelé' followed by a large text input field; a label 'dans' followed by a dropdown menu showing 'mon calendrier'; a label 'lieu' followed by a large text input field; a label 'recurrence' followed by a checkbox and the text 'oui'; a label 'description' followed by a large text input field; and a label 'alerte' followed by a dropdown menu showing 'pas d'alerte'. At the bottom right of the form area is a circular button with a plus sign '+'. An arrow points from the 'mon calendrier' dropdown menu to a yellow callout box on the right.

ajoutez un evenement

debut joure fin

libelé

dans mon calendrier

lieu

recurrence ☐ oui

description

alerte pas d'alerte

+

cette partie correspond a un recapitulatif globale de la journée elle est represente de cette maniere car les informations qu'elle comporteras ne sont pas complètement definie
